

# STS MANUFACTURING PVT LTD

Making Tomorrow Better & Brighter

Specialized in manufacturing diverse range of sheet metal,  
press components for Commercial Vehicle | Defence Vehicle |  
Off Road Vehicle | Electricals & Electronics

[www.stsmpl.in](http://www.stsmpl.in)

## About us

- Leading Manufacturer of "Automotive" parts for Light, Medium & Heavy vehicle applications.
- Bench Mark Supplier of "Non-Automotive" parts for Leading Power Electronics OEM's.

Our advanced manufacturing capabilities are supported by high-precision machines and a robust infrastructure that includes dedicated units for manufacturing, quality control, metal finishing, and dispatch. Each component undergoes stringent testing with sophisticated quality equipment to ensure defect-free products that meet the highest standards.

### Our Vision

To become the recognized industry leader in automotive sectors by consistently delivering unparalleled quality and innovation that exceeds our customer's expectations

### Our Mission

To deliver competitively high-quality products and ensure maximum customer satisfaction through the active participation of every member of our organization.
